TheraDoc Celebrates 10 Years of Helping Hospitals Leverage Information Technology

When TheraDoc was founded in 1999, computerized patient safety surveillance and clinical decision support were in their infancies. Today, as the company celebrates 10 years of leadership in these fields, clinical informatics tools have become cornerstones in hospital efforts to reduce the spread of infectious diseases and improve the quality, safety, and efficiency of healthcare. Founded by pioneers in clinical informatics, TheraDoc's standards-based, real-time surveillance tools automatically monitor and standardize patient data from all areas of the hospital, looking for a broad range of adverse events and healthcare-associated infections.
